Subject: RE: UPDATED DRAFTS of EtO facility profiles and highlights factsheet

1. Ask LDEQ if Union Carbide still have Community Advisory Group for public outreach. EPA's website does not list the facility as having a Community Advisory Group
2. (b)(5) Deliberative [REDACTED]
3. On Texas slide (#15) , need a label/title on the table of numbers to identify as TX ESL. Done.
4. Slide 23: formatting: last line overruns the slide. Fixed.
5. (b) (5) [REDACTED]
6. With the NM lawsuit against Sterigenics Santa Teresa/Soterra, we need a slide on this facility, listing all the reasons why we removed it. Also, please include permit limits and EI numbers. Will do.

Subject: UPDATED DRAFTS of EtO facility profiles and highlights factsheet

Jeff & Fran -

These are UPDATED DRAFTS of the EtO facility profiles and highlights factsheet we used in our last EtO briefing for David Gray.

Let me know what questions you have and I'll respond as best I can.

-Ruben

ALSO...

I've asked External Affairs to get us updates from other regions on their interactions with sister facilities to ours.

LDEQ has said they will get us some more information on potential additional EtO controls.

We've got the call with LCA this month on NATA.

We may hear about new commercial sterilizer RTR rulemaking information from OAQPS this month.
